

CUSTOMER'S OWN MATERIAL

HALCON offers a Customer's Own Material (COM) option, giving you the flexibility to personalize designs with your selected textile or leather. COM includes the application of the customer's textile or leather at the price listed for each product. HALCON reserves the right to adjust pricing when special circumstances arise, such as complex pattern repeats or challenging materials.

All COM orders require prior approval by HALCON before they will be accepted for production. If a COM has not been approved, please submit the proposed textile or leather using HALCON's [COM Test Request Form](#). To see approved COM selections, visit the [Textiles Approvals](#) page.

Yardage Requirements

HALCON requires COM to be sent in as continuous yardage in the same die lot. Yardage requirements shown in price list are based on using non-directional materials of 54" wide. Textiles of narrower widths and/or involve matching repeats (e.g., stipes, prints, or large patterned designs) will require additional yardage. Under most of these circumstances, approximately 15% additional material is required for fabrics less than 54" wide. Please contact your Project Manager for exact yardage requirements of your COM.

Square Footage Requirements

Square footage requirements for leather are shown in price list.

Please contact your Project Manager for exact square footage requirements of your COM.

IMPORTANT NOTES

- HALCON assumes no responsibility for the durability or tailoring quality of COM. Directional fabrics may not align with product design and could affect appearance.
- COM orders are non-returnable. If appearance is a concern, please request a sample using the specified material before placing an order.
- While HALCON inspects for mill imperfections, certain flaws may be difficult to detect. HALCON is not responsible for defects, color inaccuracies and variations, dye lot inconsistencies, or flaws in COM materials. We suggest that our customers inspect material before furnishing them.
- HALCON assumes no responsibility for COM shortages. Customers are responsible for timely shipment of COM materials. HALCON does not monitor receipt of materials for delivery deadlines.
- HALCON does not offer any warranty on Customers Own Materials (COM). HALCON advises customers to refer to each supplier's potential warranty as they vary by supplier. Additionally, if the material is found to be covered under a supplier's warranty, including, but not limited to, quality, aging, colorfastness, marks, scars, shade variations, puddling, wrinkling and abrasions, HALCON is not responsible for additional costs from replacement products or labor. HALCON will also not be held responsible for any wrong specification of fabric or leather requested by the customer.

CUSTOMER'S OWN MATERIAL SUBMISSION FORM (AFTER COM APPROVAL)

COMs must be accompanied with a pack list clearly marked with the following details.
All COM fabrics and leather should be sent prepaid to HALCON at the address below.
Must include PO# on shipping label.
